In addition to Greek letters theta, phi, sigma and delta, other symbols are used such as that for perpendicular in geometry, similar to an inverted T, and the circle with a dot in the center, which he calls complex and the circle with a dot in the center and the work of a "very small center, used to represent a point."

Work with the patterns of the three ciphers, he said. "The person, has yielded eight cryptograms, which he calls complex and the circle with a dot in the center and the work of a "very small center, used to represent a point."

He thinks the person who made them is "intelligent, scheming and imaginative, but not really unusual. I know kids in school who could do better" on cryptograms. "He must be extremely upset and probably is trying to keep himself busy, spending all his time constructing the codes because of what he's done."

The following is the text of his latest letter:

"Dear Editor:

"This is the zodiac speaking. In answer to your asking for more details about the good times I have had in Vallejo, I shall be very happy to supply even more material, by the way, are the police having a good time with the code? If not, let them in cheer up, when they do crack it they will have the codes because of what he's done."

"On the 4th of July, I did not open the car door, Dennis Wilson, 18, was being held in connection with the state- ready. The boy was originally being death of his father, Charles Wilson, 49, Saturday in a hotel room.

Suspects remained at large.

Rudolph Milton Borrer, 17, was arrested but the other three suspects remained at large.

The toll stands at 95, compared with 81 for all of 1968.

One suspect was arrested last weekend in the killing of Daniel Carter, 33, an employee of Southern Pacific Railroad. Carter was killed by four youths, who left a birthday party and good time with the code? If not, let them in cheer up, when they do crack it they will have the codes because of what he's done."

## Browning In Oakland

OAKLAND (AP) — A San Francisco man drowned in Lake Temescal Sunday and nearly drowned a young girl under with whom he was having some fun with him, a ranger says.

Albert Lawrence, 25, grabbed the girl by the neck when she was in a frenzied effort to stay afloat, said David Lindstrom, the park ranger.

A lifeguard saved the girl but when he returned Lawrence had vanished.

His body was found an hour later.

Above are three cryptogram letters sent to three Bay Area newspapers allegedly by the killer of two Solano County couples in separate slayings. The self-proclaimed killer, alleged decider the cryptograms will reveal his identity.

Dear Editor

I am the killer of the 2 young  
girls last Christmas at Lake Merritt  
and the girl last 4th of July. To  
prove this I had store some facts  
which only I & the police know  
Christmas

- 1 Band name of mine Super X
- 2 10 3rd floor
- 3 My was under foot to car
- 4 Girl was lying on right side  
feet up west  
4th of July
- 1 Girl was wearing pajamas  
pajamas
- 2 Boy was shot in knee
- 3 Band name of mine was  
Western

Here is a cryptogram so that is  
proof of mine. The other 2 facts  
have been written in the S.F.  
Examiner & the S.F. Chronicle  
I want you to print it +

Cipher on your front page by  
Fry Affirmation Aug 1 69. If you  
do not do this I will go on a  
kill ramp page Fry says who  
will let the whole world know  
I will cause trouble and pick  
of all street people or couples  
that are alone then move on so  
kill some more until I have  
killed over a dozen people.

The letter received by Gibson Publications from the person who asserts he's the killer of three young persons in Vallejo is reprinted in hopes the writing may be recognized by someone. Particular things to note in checking identity of writer in addition to general writing style, are use of letter "s" twice on Christmas, spelling of lying with an "e", spelling of cipher with a "y", on one occasion, the abbreviation of Friday as "Fry", spelling of off as "of" and spelling of couples as "coupples."
