

Sniper At Berryessa Reported

Sheriff's deputies, highway patrolmen and fish and game wardens were unsuccessful in apprehending reported snipers in the Lake Berryessa area Sunday afternoon.

Law enforcement officers received several reports that a person was shooting at bathers along the lake shore late in the afternoon. The sniper was traveling in a 1963 model car, witnesses reported, and when last seen was headed toward Monticello Dam.

However, a thorough search of the area failed to turn up the alleged sniper's vehicle, officers said.
