INTRA-DEPARTMENTAL MEMORANDUM

	DIST. BUR. DET. Richmond	DAY & DATE Wed. 11/12/69
Insp. Armstrong & Toschi Homicide Detail.	SUBJECT: Information re: Stein murder Possible Zodiac suspect	

Sir;
I respectfully wish to report the following, that while responding to the area of Cherry and Washington Streets a suspect fitting the description of the Zodiac killer was observed by officer Fouke walking in an easterly direction on Jackson street and then turn north on Maple street. This subject was not stopped as the description received from communication was that of a negro male. When the right description was broadcast reporting officer informed communications that a possible suspect had been seen going north on Maple Street into the Presidio, The area of Julius Kahn playground and a search was started which had negative results.

The suspect that was observed by officer Fouke was a WMA 35-45 Yrs about 5'10", 180-200 lbs Medium heavy build - Barrel chested - Medium complexion - Light colored hair possibly graying in rear (May have been lighting that caused this effect.) Crew cut - Wearing glasses - Dressed in dark ~~XXXX~~ blue waist length zipper type jacket (Navy or royal blue) Elastic cuffs and waist band zipped part way up. Brown wool pants pleated type baggy in rear (Rust brown) May have been wearing low cut shoes.

Subject at no time appeared to be in a hurry walked with a shuffling lope, Slightly bent forward head down. The subjects general appearance to classify him as a group would be that he might be of Welsh ancestry.

My partner that night was officer E. Zelms # 1348 of Richmond station. I do not know if he observed this subject or not.

Respectfully submitted
