

## KIDNAP, SHOOTING

# Escapees Caught After Violence

SANDPOINT, Idaho (AP) — Two Montana Prison escapees were captured in woods near this North Idaho resort community Sunday — but not before they had threatened a couple out camping with a knife to get their pistol and car, left them bound and gagged and shot another man after kidnaping him and taking his car, sheriff's deputies said.

One of the convicts, shivering as law officers surrounded him and his companion, said he fell into Lake Pend Oreille while fleeing officers and was "too cold" to keep running. The two offered no resistance although they still carried the stolen pistol.

The Bonner County Sheriff's office here said David Finch, 28, and Raymond Lee Wilson, 27, were in jail here. The two were among 12 who fled a prison farm near the Montana penitentiary at Deer Lodge July 15. Three of the inmates were still at large.

### CAMPERS ATTACKED

Deputies said Mr. and Mrs. Richard Yates, Bonners Ferry, Idaho, were camped north of Bonners Ferry when two men approached claiming they were lost. When the couple became suspicious, the convict pulled a knife, bound and gagged the pair and took their .22 caliber pistol and car. Near Sandpoint, the Yates' car ran out of gasoline and the two convicts commandeered a car belonging to Michael Winslow, Sandpoint, and forced him at gunpoint to drive toward Sandpoint. An argument developed at a service station

between the convicts and Winslow over the pumping of gasoline, deputies said, and Winslow was shot in the forearm. The convicts then fled in the wounded man's car.

### POLICE CHASE

The two convicts were spotted by Sandpoint City Policeman Willard Piehl who gave chase and alerted other officers. State police and sheriff's deputies responded and captured the escapees after they abandoned the Winslow vehicle and fled into woods near the lake.

Winslow's wound was minor and the Yates were not hurt, deputies said.

## Should See Ones That Got Away!!

TOKYO (AP) — Japanese fishermen were baffled and a bit scared Sunday after fishing a polka-dotted monster out of the sea.

They said the monster — believed to be a deep-sea-fish — was caught in their net while they were fishing in the Pacific east of Tokyo. It was about six feet long and weighed about 200 pounds, with two fins sharp as hatchets, the fishermen said.

Its head and back had nine "thorns" resembling as many rugged saws, and it had polka dots on its body, they added.

The fishermen did not know the name of the fish.
